

Waking up

At camp I will share a room with other campers.

If I wake up and other people are still sleeping I need to be quiet.

A counselor will come in and wake everyone
When it is time to get up.

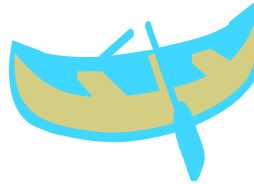

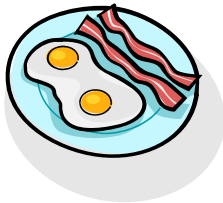

- It is important to get out of bed when asked to.

- Once I get out of bed I can start my day.

- I can have breakfast and do fun activities.

- If I need help a counselor will help me get my clothes on.

- Then it is time to brush my teeth and brush my hair.

- Sometimes I might have to wait my turn.

- This is ok. Everyone will get a turn to get ready.

- Once everyone is ready we will walk to the flag pole

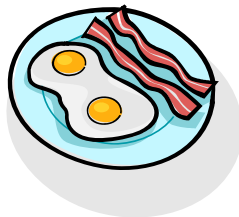

- We will see the other campers at the flag pole.

- Once everyone is there we will sing a few songs

- When we are done singing it is time for breakfast.

- I am glad that I got ready when I was asked to.

- Now I can do lots of fun activities.
